Portfolio — ToolMorph

Professional Summary

Full-Stack Software Engineer with 3 years of experience building production SaaS and AI-powered web applications. Experienced in React, Next.js, TypeScript, JavaScript, Node.js, Express.js, PostgreSQL, MongoDB, REST APIs, authentication, third-party integrations, and LLM-powered features.

Technical Skills

Languages & Frontend: JavaScript, TypeScript, React.js, Next.js, React Native, Tailwind CSS

Backend & Databases: Node.js, Express.js, REST APIs, JWT Authentication, API Integrations, PostgreSQL, MongoDB, Supabase

AI & Cloud: OpenAI APIs, LLM Integrations, AWS, Vercel, Docker, Jenkins, GitHub Actions

Professional Experience

Freelance Full-Stack Software Engineer – Upwork

Jan 2025 – Present

- Built and shipped SaaS features for BrandRadar, MonuDesk, and Optimate using React, Next.js, TypeScript, Node.js, PostgreSQL, and REST APIs.
- Developed reusable frontend components, backend services, authentication flows, database workflows, API integrations, and AI-powered features across client applications.
- Integrated third-party services for accounting, payments, support, and product workflows while collaborating with product, design, and QA teams to deliver production releases.

75way Technologies Pvt Ltd.

Jan 2024 – Dec 2024

Associate Software Developer

Mohali, Punjab, India

- Developed frontend and backend features for financial, education, and ecommerce applications using React, JavaScript, REST APIs, and reusable software components.
- Built reusable frontend components and backend patterns to improve code consistency, maintainability, and development efficiency across multiple products.
- Collaborated with QA, design, and product teams throughout the software development lifecycle to implement features and deliver production releases.

Projects

MonuDesk – Order Management Platform | [Live](#)

2025 – 2026

- Developed SaaS features for an order management platform using Next.js, TypeScript, Node.js, PostgreSQL, and REST APIs.
- Integrated QuickBooks, PayFactory, and Featurebase for accounting, payments, customer support, and cross-platform data synchronization.

BrandRadar – AI Brand Intelligence Platform | [Live](#)

2024 – 2025

- Built an AI-powered platform that analyzes LLM responses to measure brand visibility and benchmark brand mentions against competitors.
- Developed interactive dashboards, data visualizations, responsive interfaces, and AI workflows using Next.js, TypeScript, Tailwind CSS, and OpenAI APIs.

ToolMorph – Developer Tools & AI Platform | [Live](#)

2026

- Built and launched a developer platform featuring 18+ browser-based tools for JSON, APIs, encoding, security, media, and developer workflows.
- Designed and developed ToolMorph Labs, an AI product suite including Founder Roast, Resume Scorer, and LifeMap using LLM integrations and reusable web components.

Education

College of Engineering Roorkee

August 2020 – June 2024

Bachelor of Technology in Computer Science and Engineering

Uttarakhand, India
